

Text Connection Scoring Rubric

A 25 point response includes all of the components listed below (+5 each).

The question/prompt is clearly **restated** in the response.

An apparent **connection** is made to the text (text to self, text to text, text to world) showing that the writer knows what is being asked.

One or more **quotations** from the text are provided. Examples are relevant and fully support or explain the connection. Text location (page number, paragraph, etc.) is clearly **cited**.

The response includes reasoning, an **explanation**, and/or inferencing which strongly support the connection.

There is clear evidence that the response has been re-read, revised, and edited. **Minimal errors** exist in spelling, grammar, punctuation, capitalization, and sentence structure.
